

Fiber Optic Cabling System

Copper to Fiber Media Converter

Copper to Fiber Media Converter

Product Description

10/100M Copper to Fiber Media Converter can convert 10/100Base-TX twisted-pair electrical signal and 100Base-FX optical signal one another. The typical application is Ethernet long-distance inter-linkage. The media converter can be set forcibly at 10/100M, Full/Half-duplex so as to adapt to different applications and situation. 1000M Copper to Fiber Media Converter can convert 10Mbps, or 100 Mbps, or 1000 Mbps Ethernet traffic from fixed 10 Mbps force full duplex, fixed 100 Mbps forced full duplex, or forced Mbps full duplex.

Part Number	Description
40601	Multimode 10/100M Copper to Fiber Media Converter
40602	Singlemode 10/100M Copper to Fiber Media Converter
40603	Multimode 1000M Copper to Fiber Media Converter
40604	Singlemode 1000M Copper to Fiber Media Converter
